## SUPERCONSCIOUS SELF-COACHING™ (SSC)

**A unique training by Erika Laszlo, Creator of the SSC system, international transformational trainer, author and coach**

If you are longing for something new, revolutionary and very effective to easily change your and your clients' lives for having more freedom and prosperity, if you like being among like-minded people, read the following because it is for you!

### **Best Part:**

Everybody can learn this system easily and create quick results, however... **this system isn't for everyone. Most people are simply not ready for it.** The system vibrates on love (acceptance and non-judgment) - one of the most powerful and highest vibrational energies - and not everyone is ready to receive this energy.

- Do you want to transform lives around you and make a better world? And at the same time fulfil your desires and purpose with making money?
- Do you feel sometimes (all times?) you are looked at “weird” just because of your thinking?
- Do you want to deeply connect with others in a safe, peaceful, non-judgemental environment?
- Do you feel that you have unique talents but not safe to show the real you to the world?

If you said yes to the above, you are ready to receive this revolutionary tool, the first intuitive, licensed, chart-based coaching system in the world!

**There is another good news:** Not many people get this news so take the opportunity that is presented by your life!

If you haven't heard about SuperConscious Self-Coaching™ and do not know our international community, please read more and visit our website: [scc.world](http://scc.world).

## PLEASE CHOOSE ACCORDING TO WHICH IS THE MOST IMPORTANT TO YOU

- I want to feel lighter, less burdened and free in my work and my life;
- I'd like to know more about how **to change any problematic financial situation for the better**;
- I want to have an even higher clarity and consciousness level;
- I want to find my life path to feel on purpose;
- I am looking for the ONE tool that changes lives forever;
- I want to help others and make a better world;
- I want to **belong to a community**.

SuperConscious Self-Coaching is for you if any of the above is true for you! :)

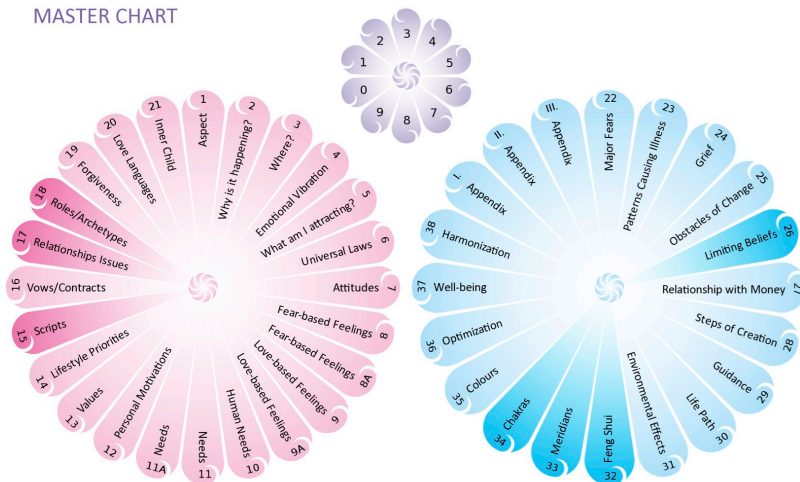

## SUPERCONSCIOUS SELF-COACHING™:

- **is aligned with the new challenges of the 21st century and based on latest scientific research (epigenetics);**
- is entirely love-based and does not concentrate on the problem (fear);

- **it is integrated**, you will find some Western coaching, psychological and Eastern spiritual philosophy and other elements all in one system
- works on all levels: SuperConscious, conscious and subconscious
- has a unique (trademarked) design
- concentrates on the present and on the solution;
- focuses on changing and transforming controlling and limiting belief systems as well as fear-based energies and feelings;
- includes detailed chakra and meridian charts;
- is like a coaching by one's inner self;
- **is simple and easy to learn**;
- it is available as an app for iPad in many different languages!

MASTER CHART

### *The SuperConscious Self-Coaching Master Chart*

**We use charts in this method** and get the information from the charts about the blocking energies and programmes with using the biofeedback mechanism (pendulum, eye or finger) everybody has.

We not only use our conscious aspect as in usual coaching but we also use our SuperConscious aspect with which we can quickly identify the blocking, limiting beliefs, fear-based feelings and energies and change them for love-based ones.

## SSC IS FOR YOU IF:

- **you are fed up with constantly looking for the ONE method and want a final solution;**
- you are ready for new and to make an impact in the world;
- you feel you deserve the very best;
- you are willing to invest to yourself and your knowledge;
- you want a system that is easy to learn and apply;
- **you are ready to step up to an even higher level of your consciousness;**
- you want to know more about recent scientific research and how this system is proved by quantum physics;
- you want to belong to the International SuperConscious community.

## SCC ISN'T FOR YOU IF:

- you are totally content with your life and work;
- you cannot be happier, calmer, more balanced and successful;
- you are longing for the "Miracle" tablet;
- you believe you don't need anything more;
- you have more than enough clients and satisfied with what you do.

## WHY SSC IS GOOD TO YOU? ... BECAUSE:

- You will know how to change all blocks and to create good things;
- **You will know to change blocking beliefs** on both conscious and subconscious levels **with the "DEMERT Method™"** (a proven writing technique created by Erika Laszlo);
- You will be able to consciously know, check and **change your relationship with money;**
- You will know to change the emotional blocks in the energy system of your body (Chakra and Meridian systems);
- You will know what blocks you and how to change it in your environment;
- **You will learn skills that are applied in positive psychology and coaching;**

- You will be among the first to use SSC and will be able to offer this new, exciting and effective system to your friends and family (and to your clients) for everyone's highest good;
- Plus, much much more!

## ARE YOU STILL UNSURE?

[Read more from previous SSC students on the website.](#)

**Consider...** if you can only change your life and your loved ones for easier and freer with more balance, peace and happiness in it, how much that would worth as an investment?

**If you want to use SuperConscious Self-Coaching** and build this new system into your current knowledge or you want to start a new career **your investment to this class will return having as few as about 12 transformation sessions!**

Do you agree that it is a very quick return?  
Not mentioning the lot of benefits you will get on this class.

## Frequently Asked Questions About Superconscious Self-Coaching™

SuperConscious Self-Coaching™ course is designed to activate your unique abilities and potential so you can step up on an even higher level of your consciousness.

We believe at SuperConscious World™ that you shouldn't have to wait and struggle to become a successful coach and mentor.

Within the first hours at the training, it will "click" for you, and you'll recognise your own superconscious powers.

By the end of day four, you'll be ready to transform lives with this easy method.

This is why many of our students “change their mind” and want to become a SuperConscious Mentor because they realise the power of SuperConscious Self-Coaching™ during the class. Our new SuperConscious Mentors usually get their first paying client directly after they are certified.

If you have questions about what SuperConscious Self-Coaching™ is like, how this unique intuitive coaching process works, and how it is that you can get a year's worth of professional progress within four days of intensive training, please download the class programme and watch the youtube video about a transformation session.

Here are answers to the most frequent questions we get about SuperConscious Self-Coaching™:

### How does SuperConscious Self-Coaching™ compare to other courses?

SuperConscious Self-Coaching will activate your natural skills on a higher level and magnify your superconscious power. The chart system guides you through a transformation session faster and easier than any other modality or coaching.

It's a unique live training environment where being in a small laser-focused group and a mentorship relationship with the instructor, you can get a year's worth of coaching growth in four days.

### **Will I be personally mentored?**

Yes! The class size is kept small because we want everyone to have plenty of access to answering questions and personal coaching. Raise your hands every time you have a problem - you will be answered. You will be able to discover your true strengths and new opportunities for growth.

### **What if I have not learned as a coach? Can I attend SuperConscious Self-Coaching™?**

SuperConscious Self-Coaching™ training is very different from usual coaching and no background is required to attend SuperConscious Self-Coaching™ class.

If you are a beginner, you will be able to learn this intuitive coaching system without any problem because many others have already learned it with ease.

About 30% are total beginners who have never taken a (coach) training. About 30% are coaches or therapists. About 20% are diverse professionals who work regularly with people and want to learn an easy method to help and transform issues for them. About 20% are not planning to become a professional coach or mentor at all but are instead people seeking a tool for life improvement.

### **Can I come for personal reasons only?**

Yes. Many people come only to become more skilful, resourceful, and influential in their own lives and they look for the “final” method that changes lives forever. Those who come for professional reasons have personal breakthroughs often that change their lives.

### **What if I'm learning something else right now?**

On average 20% of our students are graduates or students in training of some kind. SuperConscious Self-Coaching™ is a way to accelerate your progress through that other course. Getting SuperConscious Self-Coaching™ charts and the methodology with transforming any obstacles enables our

students to absorb, process, and complete their other training (exams) more quickly.

### **Is this similar I got from other coaching training?**

No. We have some foundational coaching and NLP principles which you may recognise (perhaps 5% of the content), but you have never seen this system and the methodology with its unique written exercises before.

This system is an entirely new approach and cannot be compared to other coaching pieces of training or methods because we use a chart set, our superconscious aspect and transform energies. Our method is based on quantum physics.

### **How do I get coaching clients for SuperConscious Self-Coaching™?**

First of all, you must become an SCC Mentor and have the License Agreement signed (and maintained) if you want to work with clients.

(The EMERALD and DIAMOND VIP Package offer the immediate title of an SCC Mentor after finishing the training. You also get unlimited email mentoring for one year from Erika as part of your DIAMOND package so she can help you in this new career.)

If you're not used to getting paid for your consultations and coaching (or have some difficulties in your relationship with money), you will learn and able to eliminate the blocks with SuperConscious Self-Coaching™.

The reason many consultants, coaches and helpers do not get clients they deserve is that they are emotionally conflicted about helping others and making money with it.

You will be able to remove those conflicts with SuperConscious Self-Coaching™, so you feel comfortable and happy about getting clients and make money while doing a work you always wanted.

### **Is marketing also covered in the course?**

Since marketing is necessary for SCC Mentors, as part of your DIAMOND VIP Package, you will get the KEY to Creative Work practical guide. In this 140

pages book, we cover the most critical issues you need to be comfortable with for making money with SuperConscious mentoring.

### **There are live training for free - how is SuperConscious Self-Coaching different?**

Yes, there are some "free training" out there. There are marketers offering "free" or "bonus" training events. However, you need to be aware that nobody can afford to give expensive events for free.

If a live event is free or cheap, you can bet it is a way to get you under their roof so they can sell something more expensive.

At these free training, (and sometimes even with the cheap paid ones too!) the training you really need is withheld until you pay for something more expensive at the event. This is unfortunately very common.

Our classes, pieces of training and workshops at SuperConscious World™ are the opposite - they are comprehensive training, with the aim of giving you everything you need, including personalised support.

You get everything at SuperConscious Self-Coaching™ Intensive Training with which you can immediately start helping your clients if you choose the EMERALD or DIAMOND VIP package (or use it for your family, friends and yourself with Sapphire package).

### **How long does the certification take?**

The only requirement for immediate certification with the title of SCC Mentor is attendance at the 4-day training with the EMERALD or DIAMOND VIP package (and registering on the website). You get the SCC Mentor title on the site after finishing the class.

### **What if I choose the SAPPHIRE VIP package?**

Well done, you got your ticket to a lighter life with more freedom and abundance!

If you choose the SAPPHIRE package, you will become an SCC Junior after the class and you can start immediately using the system to make your life

better! You can gain more awareness about your life and help your family and friends around you.

Not everyone wants to become a Mentor, some people come to the training for personal reasons because they want to have higher self-confidence, be more influential in their own lives and they want a simple yet potent method that changes lives forever.

And of course you can always decide to further develop yourself and start your mentoring practise.

### **Why would I learn SuperConscious Self-Coaching™?**

You get Erika Laszlo's proprietary chart system and method and personalised training and feedback from her. You will learn intensively in a live environment and a powerful mentoring community. You get hours of focused practice, and you will receive SuperConscious mentoring as well.

It is very likely that you will have empowering personal breakthroughs, big “AHA” moments. And you'll get a transformative experience that will prove to you that you're a born mentor ready to help the world.

### **Done For You: 2 Key Strategies To Use The Charts & The Financial Ceiling**

You will become an expert at the methodology of SuperConscious Self-Coaching™ and the charts. You will learn them, see them how to use, practise them for yourself and others, get feedback, and your questions answered for each chart or item. This will give you a level of expertise with this unique system.

When you have these 2 key strategies, you will be able to help any person/client in any situation. The transformation of the Financial Ceiling in the family also works as a 2 session mentoring series that you can offer your clients right away. (Requirement is to choose the EMERALD or DIAMOND VIP package.)

### **How can I be sure this training is right for me?**

Just listen to your intuition and gut feelings. If the above and the class information do not resonate with you it is not for you.

It is fun and full of joy, and we love what we do! Come and join our community if you want to experience the same and change the world to a better place with us!
